

## Prophecies of Two Separate Attacks on Israel

Numerous attacks have been launched against Israel, during its entire history. In addition, there are two very “large scale” attacks that are *prophesied* to take place against Israel, in the future. Both of those attacks will involve **multiple** nations attacking Israel, in a coordinated effort. Those two attacks are completely **different** from each other, though – they involve *different* nations, and take place at *different* times. The sections below describe those two prophesied attacks.

### Psalms 83 – Nations **directly adjacent** to Israel attack

This attack happens shortly before the return of Jesus. When Jesus returns, he will lead the Israelite forces in defeating this attack.

### Ezekiel 38 – Nations **farther away** from Israel attack

This attack happens after the return of Jesus. Jesus will be ruling over Israel at that time – and he will defeat this attack by himself.
